

Training Available

Taupo Access Hire is able to facilitate training and courses as set out below.

1 EWP (elevated work platform) Operator Training (1 day)

Machines covered on this course:

- Self-Propelled Scissor Lifts.
- Knuckle Booms.
- Cherry Pickers.

NZQA Unit Standards Covered

- 23966 Theory.
- 23960 Scissor Lifts.
- 23963 Trailer Mounted Articulated.
- 23962 Boom Lifts.

For anyone who is using EWP equipment in the workplace and needs to be deemed competent.

2 Working at Heights (1 day)

Covered on this course:

Use safety harness system when working at height.
Employ fall arrest systems on building and construction sites.

NZQA Unit Standards Covered

- 23229
- 15757

For anyone working at heights whether ladder, scaffolding or simply in a place where a fall could result in an injury.

3 EWP (elevated work platform) Machine Operator Training (hourly)

Taupo Access Hire is able to facilitate **one on one** training on EWP equipment. This will ensure familiarity with the equipment causing less down time on the job. Less lost time for other staff to train them and bad habits that may be shown.
